LOCAL NOTES

Edison Co. Seeks Another Route for High Tension Line

That the Southern California Edison Company expects to find another route for its high tension line to the Columbia Steel Corporation and will probably not have to ask permission to run the line through the residence district was the report of City Engineer Frank Leonard to the City Council Tuesday night. The informal request for a permit for poles through the residence district met with considerable opposition and the Edison Company is desirous of co-operating with the aims of the city in this connection.

Sepulveda Blvd. One Step Nearer

Sepulveda boulevard—when completed—will provide a vastly important highway for Torrance. The great north-south road will pass through Torrance over Camino Real. Last week another step toward its ultimate completion was taken when an ordinance of intention was introduced at the Los Angeles City Council providing for improvement of the highway between Ohio and Pico avenues. It had been expected that the work to be done by the city would delay the whole project. Now it appears that the city's part will be completed before that of the county.
